

April 14, 2010

WASHINGTON, DC - Today, U.S. Rep. Michael Arcuri (NY-24) announced that the Rome Fire Department will receive \$221,670 in funding for operations and safety enhancements under the 2009 federal Assistance to Firefighters Grants (AFG) program.

The Rome Fire Department will use this funding to purchase 77 sets of new Turnout gear and an exhaust system for their firehouse.

"I am pleased that local fire departments are getting the resources they need to fight fires and protect the members of their communities," **said Arcuri, who has organized several fire grant writing workshops with the Department of Homeland Security for local fire departments over the last three years.**

"The purchase of additional rescue vehicles and the ability to make improvements to equipment and facilities for our rescue workers is critical. Providing the funding necessary to allow our local fire fighters to be best equipped to do their job makes them safer and contributes greatly to the overall safety of our community."

"This AFG Grant will ensure that our firefighters have the required Personal Protective Equipment (Turn-out Gear) they need to provide life saving services to our community, while protecting our fire departments greatest asset- our firefighters," **said Rome Fire Chief Ronald Brement.**

"We also received grant funding for a vehicle exhaust extraction system, which will not only protect our environment, but provide a healthier work place for our staff and visiting community members."

Today's announcement marks the tenth round of announcements for 2009 AFG funding. To date, a total of 21 fire departments in Arcuri's district have been awarded nearly \$1.5 million in funding through the 2009 AFG program.

The Department of Homeland Security's (DHS) AFG program awards grants in two areas. The first is the Operations and Safety Program Area in which funding is used for training, equipment, wellness and fitness and health and safety modifications to the facilities. The second is the

Vehicle Acquisition Program Area would allow departments to purchase various types of rescue vehicles including ambulances, hazardous materials clean up vehicles, tankers and pumper trucks. DHS will continue to make funding announcements in the coming weeks.

Last week, Arcuri hosted a Fire Grant Workshop in Cortland, NY, lead by FEMA Regional Fire Grant Specialist David Gronsbell, to help emergency first responders in across Upstate New York apply for grants through the AFG Program. Since taking office in 2007, Arcuri has held 5 Fire Grant Workshops and assisted more than 90 local fire departments in securing approximately \$6.6 million in funding through the AFG program.

Local fire departments interested in applying for AFG program grants or attend the Fire Grants Workshop are encouraged to call Arcuri's Utica, NY office at 315-793-8146.

Below is a list of other fire departments that have also received AFG funding in 2009:
